## Objective:

Highly skilled web developer with expertise in PHP, JavaScript, Laravel, and React seeking challenging freelance opportunities to apply my technical skills and creativity to deliver exceptional web solutions.

## Professional Experience:

- Developed and maintained web applications using PHP, JavaScript, Laravel, and React.
- Collaborated closely with clients to understand project accurate requirements. Deliver solutions that met their business objectives.
- Implemented custom features, optimized website performance, and ensured cross-browser compatibility.
- Conducted code reviews, implemented best practices, and ensured code quality and security.
- Created and maintained documentation for clients and team members.

## Fiverr Freelancer | appsaeed | 2019-currently

- A sms application (portal sms) project in Laravel, blade template and sms provider API. A huge payment gateway api includes & user nterface and admin management system. It was complicated to implement sms server API for me like twilio, signaliwre etc. but help of reading their api documentation then I am able to successfully completed.
- AI Source Creator ( ASC ) AI content writer web application with reactjs and wordpress API. We have requirement to implement wordpress create api to for all backend functionality in API. I have been trouble with relation between frontend and backend for reactjs js authentication. Without wordpress api key finally we able to success using wp nonce for some server and host.
- Manage Book order (oxfordeditors) in laravel so the first time project was so slower and down. After implementing react in frontend projects reach out high performance user experiences.

## Skills:

- Web Development: PHP, JavaScript, HTML5, CSS3
- Frameworks: Laravel, React, Solidjs
- Front-End Technologies: React, Redux, jQuery
- Database Management: MySQL, MongoDB, oracle, sqlite, mariadb
- Version Control: Git, GitHub
- Responsive Design and CSS Frameworks: Bootstrap, Tailwind CSS
- API Integration and Development
- Cross-Browser Compatibility & Performance Optimization
- Problem Solving and Debugging
- Project Management and Communication
